Everything you love about Avaira® and more.

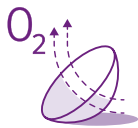

Avaira Vitality™ and Avaira Vitality™ toric are created with a third generation silicone hydrogel material that allows high levels of oxygen to your eyes. Combined with high water content, this ensures Avaira Vitality™ and Avaira Vitality™ toric are high performing, comfortable lenses.

Naturally and uniformly wettable
For smoothness and comfort that lasts.

Soft and flexible.
For a gentle lens-wearing experience.

Breathable.
High levels of oxygen flow through the lens, promoting a healthier lens-wearing experience.

What's new?

As a current wearer of Avaira® lenses, you're used to a great lens-wearing experience. Now with Avaira Vitality™ and Avaira Vitality™ toric, there's even more to love;

Improved UV protection with a Class 1 UV filter.¹

Enhanced with higher water content.

1. Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover the eye and surrounding area. Patients should continue to use UV-absorbing eyewear as directed.

Meeting the needs of today's patients for comfort, vision and health.

Longer-lasting comfort.

Healthier lens-wearing experience.

Excellent visual acuity.
